

NORRIS ON STAND

Federal Grand Jury to Hear
Spotter's Story.

Preacher Declines to Tell Where
He Bought Liquor.

REVENUE MEN HERE.

Simon and Employee Do Not
Give Up List.

Famous Forty Have Not Pur-
chased Liquor Stamps.

When the federal grand jury meets in Kansas City this month the Robert Norris will have an opportunity to tell where he "bought liquor in 40 different places in Topeka recently."

If Rev. Norris found 40 joints in Topeka in his recent search, Uncle Sam wants to know about it. Not that the government expects to take a hand in the Shawnee county case, but to collect the revenue. At the present time there is nothing like 40 liquor stamps owned in Topeka. If Mr. Norris could tell the state temperance union, there are 40 places where beer and whiskey can be bought in Topeka, the government wants a list of these places and will begin actions against the offenders of the federal law.

When questioned about the names of the men and women who told him he bought liquor, Rev. Norris said he became dim and hazy. Away back in the archives of his memory he recalled the faces of some of the people who told him liquor, but to save his life Mr. Norris couldn't furnish the government with a list of the places he visited. Somehow none of the names of these people could be supplied by Rev. Norris.

Where Is That List?
He declared that he had turned his information over to the county attorney. Then the county attorney was interviewed, but Mr. Simon only smiled and rubbed his monocle and gave an evasive answer. Yes, Mr. Simon knew Rev. Norris had done some missionary work in Shawnee county. Where were the places he bought liquor? Well, sir, to save your dear life, Mr. Simon couldn't say. Wasn't Mr. Simon working in the interest of law enforcement? Oh, yes, indeed, to be sure. Look at his record. But as to a list of those 40 famous resorts, well Mr. Simon didn't have them handy.

If you have studied the question, you realize that the law against the state and national administrations is at the prohibitory law, has gone sadly astray. All of the cards are in favor of the state officials. They can walk down to the federal building and get a list of every person in Kansas who owns a liquor stamp. They can walk down to the federal building and get a list of every person in Kansas who owns a liquor stamp. They can walk down to the federal building and get a list of every person in Kansas who owns a liquor stamp.

On the other hand, the state law is so regulated that the county attorney may void an injunction at public expense, and learn what every citizen of Shawnee county and child on the town knows of infractions of the liquor law. There is no way for the federal officials to get this information and the grab for jointness becomes a one-sided game. It has been made more so by a generous distribution of public funds to a small number of people who sometimes bribe people to sell liquor.

MANY PAY PENALTY

Nature's Endurance Is Over-
taxed in Mad Rush.

More Than One-Half of Popu-
lation Are Affected.

SYMPTOMS DISCUSSED

Specialists Located Here Give
Cause of Trouble.

Prompt Results Are Obtained
With Foreign Method.

"The sooner the city man reaches a state of mind that keeps constantly before him as a living, active, impelling force, the fact that good health means real happiness, the better off he will be," say the specialists who are sent here to introduce the remarkable new tonic, "Tona Vita."

A great majority of those who have called at the drug store to have us explain the nature of our preparation, continued one of these specialists, "have frankly said to us that they are suffering from nervousness and were all run down, with no energy or ambition. These symptoms indicate only one thing, and that is that they are suffering with the cause of trouble that affects more than one-half of the population."

"We are now living in a fast age. A high state of civilization makes us ambitious and in our mad rush to achieve success, we find ourselves carelessly exceeding nature's limitations. We do not stop for repairs until our conditions are serious and alarming and we can not go any further alone. Finally, in the grasp of debility, we lose our ambition and in its place assume a state of languor, decline and depression."

"Nervous debility is a miserable and most dreaded ailment of the body. The body is all disordered and nine times out of ten the system needs a complete rejuvenation. Nervous food is required, new blood is needed and buoyant spirits are necessary to make us feel that we are once more in a healthy, original condition. That will accomplish this very thing, "Tona Vita" will relieve those suffering from such complaints as nervousness, stomach and bowel trouble, poor digestion, headaches, pains in the back, constipation, poor circulation, cold feet, depression and despondency. The preparation is pleasant to take, its effect is immediate and it proves a lasting source of benefit and relief."

"Those of the public, whether man or woman, who are debilitated, see us between the hours of 9 a. m. and 5 p. m. at the Arnold Drug Company's store, 523 Kansas avenue."

A free trial will be given to the first five hundred callers, provided their symptoms show them to be suffering from nervous debility.

MRS. BLEECKER DANGS

New York City, Jan. 10.—The Housekeepers' Market club may be a solution to the problem of the high cost of living.

The organization is so simple that it can be easily maintained in any community. Mrs. Blecker Dangs of Brooklyn, N. Y., is the originator of the scheme which is working out so satisfactorily. In Mrs. Dangs' club there are six women. Every Friday each member gives her a list of the things she wants and Mrs. Dangs then goes to market and buys everything at wholesale prices. The goods are delivered at her house, and the members of the club call there to settle accounts, and take their things home.

Here are some of the savings effected by the Market club:
Lettuce, a head..... Retail..... 10¢
Club..... 5¢
One of the strange incidents of the Equitable building fire was the discharge of a revolver which lay in somebody's desk. The bullet whizzed through the wall of the office and found a bullet away in an office on the fifth floor of the American Surety company's skyscraper. It narrowly missed the head of A. H. Fitcher, a clerk for the Surety company. Fitcher dozed, and as he turned his head he saw a package of envelopes that was on his desk take flight and land with a thud against the wall of the office. He found a bullet embedded in the envelopes when he investigated, and will keep it as a strange souvenir of the great fire.

NOT REAL FARMERS

People of America Rather Speculators, Says Mr. Carlson.

"The people of America are speculators—not farmers," was the declaration of G. L. Carlson of Norfolk, Neb., in speaking before the Kansas Improved Live-Stock association last Tuesday in Representative hall.

"When we go to buy a farm we do not ask how much it is going to produce in a year or two but how much we can sell it for at that time."

"I saw 108 acres of land in Scotland that you would not buy at any price unless there was a lottery ticket attached to each acre, that produced \$20,000 worth of shorthorn cattle in one year."

"There is but one farmer in 500 in Kansas and Nebraska who knows how to properly harness and hitch up a horse," continued the speaker.

"Many many horses are there in this state that do not have scars on their necks and shoulders. I personally inspected 32,000 horses in Great Britain, owned by railroad and transfer companies and I did not find a scar upon one of these horses. Isn't that proof that there is no need of scars on the horses in this country. In one town in Nebraska, where I spoke some time ago, a committee without my knowledge investigated all the farm horses tied in the town at the noon hour on the day I spoke. Of the 259 investigated, 251 had scars on their necks or shoulders. The eight that did not have them were but three years of age."

Stamp Out Hog Cholera.

"If every county in the state would organize a breeders' association, hog cholera would be stamped out in a short time," said J. M. Rodgers, who head a paper on "Breeders' Associations."

"Our association is going to stamp out hog cholera in Mitchell county. We are stamping out hog cholera at Manhattan at the State Agricultural college for use in vaccinating hogs. During the recent epidemic of hog cholera, one member of our association vaccinated 200 sows and did not have a sick one. Another applied the serum to 90 animals with the same result."

President Henry J. Waters of the State Agricultural college gave an address Tuesday night on "What Is the Matter with Corn as a Diet for Young Animals?" He said that corn with blood serum added makes an ideal diet for hogs.

"As in all diseases, the best, cheapest, easiest and most satisfactory method of combating hog cholera is by preventive measures," said Dr. George B. B. of Topeka, in speaking Tuesday on cholera and serum treatment. "First, don't let the contamination be brought into your place if you possibly prevent it. Guard all possible channels of entrance. Second, keep your hogs in good, healthy condition."

"These two methods are at every farmer's command and are the ones that should be expected of every one properly and you won't need anything to put or keep them in healthy condition."

"Many farmers are constantly dipping their hogs with this or that advertised or recommended nostrum and the number of the preventives advocated is legion including all those advanced as cures and many more. Chief among these come the various stock-foods closely followed by concentrated lye, etc., etc. Feed and house your animals properly and you won't need anything to put or keep them in healthy condition."

As Quickly as Water Dissolves Sugar

About the Time It Takes for a Stuart's Dyspepsia Tablet to Work on the Food and Bring Relief.

TRIAL PACKAGE SENT FREE.

There is no long wait between the time you take a Stuart's Dyspepsia Tablet and the feeling of relief it will bring to an overloaded stomach. It gets busy in a jiffy and quickly sets to rights in that tired and disordered stomach. It goes right at the work of digesting the food it finds lodged there and in no time at all has things on the move—the gasses cease forming, the breath is sweetened, the coating on the tongue disappears and you are no longer conscious that you even have a stomach.

"That is one of the chief recommendations for Stuart's Dyspepsia Tablets—that they don't take forever to accomplish the purpose for which you need them. It is just as if you put an extra stomach or two to work when you are eating. You can't continually overload your stomach and expect it to always smile. It is going to get rebelious and sulky after awhile and refuse to go on being driven to do double work. You must rest it occasionally—not by starving and thereby weakening yourself physically—but by using a Stuart's Dyspepsia Tablet to do the work of digesting your food."

These tablets contain all the active elements of the natural stomach juices and will alone and unaided digest food just the same as the gastric juices. And nothing could be more harmless than these tablets. They do not effect the system in any way—do not cure any ailment except as they digest food. Use them freely.

Stuart's Dyspepsia Tablets are sold by all druggists everywhere. Price 50 cents per box. A trial package will be sent if you will write F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

You've Been Dreaming of A SUIT OR OVERCOAT

made of a material, strong, soft, warm and wooly—a model that will snuggle neatly at the neck and hang from the shoulders with a swell swing that is truly manly. Boxes of Medicine to Be Given Away

\$10,000 worth of curative medicine to be mailed out direct to the homes of those who need it, a free box to each sufferer

People suffering from kidney trouble, bladder trouble, rheumatism and similar Uric Acid diseases can be helped if they will let Dr. Lynott send them some medicine to their home. He will send medicine to anybody free of charge, for he has agreed to give away ten thousand dollars worth of his medicine to those who need it and will take the trouble to fill out the Coupon and send it to him.

This statement is vouched for and would not be printed if it were not true. No money is asked and none is expected. A box of free medicine will positively be sent to anyone who writes Dr. Lynott, and there is to be no payment for it now or later, when used or when cured. It is absolutely free. All that is necessary is for Dr. Lynott to know that you need the medicine he has, so fill out the coupon and send it to him. If you have any of the symptoms mentioned here you need his medicine and you can get a box of it free by simply writing him and describing your ailments in the coupon, which is put there for your convenience. Dr. Lynott has decided that the best way to prove his claims that he is the surest man in the United States to cure these diseases is to send a box of his medicine free to anyone who needs it, and he is spending ten thousand dollars to do that. He wants to send these boxes broadcast, and all sufferers are invited to write.

Dr. Lynott has devoted 26 years of his life to the difficult specialty of treating kidney trouble, bladder trouble, rheumatism and similar uric acid ailments. This medicine that he is giving away is the result of 26 years of observation and practical experience in these diseases. No ten doctors take away the cringe and twinge of rheumatism; he relieves the strain on the muscles and nerves that cause that terrible backache; tones and strengthens the kidneys and the bladder so that they act normally again; soothes inflammation, removes obstruction, and stops the too frequent desire to urinate. It contains tonic ingredients that strengthen and invigorate. It is a safe, sane, curative medicine, and its freedom from injurious ingredients is
